

Occupational Health Technician Level 1: (Full Time)

Intrinsic Analytics Inc. is Manitoba's premier bioinformation services company. We provide personalized and customizable bioinformation and biochemical analysis for individuals, commercial enterprises and government agencies. We offer two main platforms, occupational health and personal health. We are currently seeking a qualified, independent, and highly motivated technician to perform testing services.

Job Purpose:

As an Occupational Health Technician Level 1, your role is to provide effective and efficient delivery of the occupational and personal health services to Intrinsic Analytics' valued clients. In addition, your role is to provide support to Technician II, Operations Supervisor and the Directors to aid them in carrying out the duties associated with their position's portfolio.

Duties and Responsibilities:

- Biological specimen collection
- Breath alcohol and drug analysis
- Respirator fit testing
- Strict adherence to Intrinsic Analytics' policies, protocols and chain of custody procedures
- Handling of confidential health records as per PHIA
- Organize and maintain equipment and supplies
- Maintain a clean work environment
- Administrative and sundry duties
- Available for mobile/afterhours testing

Qualifications:

- Diploma in applicable science discipline or occupational health and safety related program or equivalent level of education and experience (must be demonstrated)
- Trained (or willing to be trained) as a DOT/non DOT drug and alcohol technician
- Certified (or willing to be certified) for audiometric and pulmonary function test
- Advanced computer skills necessary
- Excellent writing skills required
- Valid driver's licence and dependable vehicle

If you want to be part of our growing team, please forward your résumé to info@intrinsicanalytics.com. Thank you to all interested applicants, those who meet our selection criteria will be contacted for an interview.
